32-BIT MICROPROCESSOR

The brains behind the engine control system in Fiesta's 1.6L Ti-VCT Duratec I-4 engine is an advanced 32-bit powertrain control module, which makes quick adjustments of fuel, air, spark and gear changes for exceptional efficiency.

Delivers the most MPGs in its class.

Wherever you drive, Ford Fiesta delivers: **class-leading highway fuel economy** of 40 mpg,¹ which no other gas-powered sedan in the U.S. can beat, as well as 120 horsepower. Much of the credit goes to its **class-exclusive 1.6L Ti-VCT Duratec® I-4 engine**, a marvel of modern efficiency. Twin independent variable camshaft timing (Ti-VCT) helps improve peak power, optimizes cold-start operation, delivers gains in low-speed torque and contributes to fuel efficiency. An available **PowerShift 6-speed automatic** transmission can provide torque to the wheels 100% of the time during shifts, for an extra-connected feel. Electric power-assisted steering helps contribute to fuel efficiency as well. Responsive. And responsible. Powerful traits of the new Ford Fiesta.

¹SFE Package. Ford preliminary test data. Pending EPA certification.

The available **voice-activated Ford SYNC®** in-vehicle connectivity system works with your paired Bluetooth®-enabled mobile phone. Plus your digital media player. Even a USB drive. With the touch of a button. And simple voice commands.¹

"Call Mark" *Provides hands-free calling*

"Read message" *Reads incoming text messages aloud*

"Play genre: rock" *Plays your digital music on command*

"Shuffle: on" *Mixes tracks like a pro*

"Services: directions" *Gives you Traffic, Directions and Information*

Personalized traffic reports with text-message alerts. Precise turn-by-turn directions. Business searches, news, sports and weather. Vehicle Health Reports. And 911 Assist.™ **SyncMyRide.com** has all the latest news.

SYNC. Say the word.

Listen to what you want. When you want. Wherever you are. With available **SIRIUS® Satellite Radio**. Enjoy over 130 channels, including 100% commercial-free music from every genre, plus sports, news, talk and comedy – all with crystal clear, coast-to-coast coverage.²

¹Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. ²Subscription required after introductory 6 months expire.

RALLY TO VICTORY

That's the goal of driver Ken Block and his Monster World Rally Team. Block, Rookie of the Year in the 2005 Rally America Championship, will pilot a 2011 Fiesta in 7 North American events in 2010, culminating at Summer X Games in Los Angeles.

Carves up curves. Smooths straightaways.

Yes, Fiesta puts you assertively in the driver's seat. And you'll seriously enjoy time spent there. Up front, its MacPherson-strut suspension features specially tuned shocks, struts, bushings and dampers – along with a **22-mm stabilizer bar** – to help keep Fiesta sure-footed and firmly planted in the corners. Advanced **electric power-assisted steering** improves steering feel at low speeds and provides precise assist on the highway. In the rear, a **twist-beam suspension** with specially tuned shocks deftly balances responsive handling with the need for a smooth ride. 15-in. wheels are standard. 16-in. aluminum wheels are available. Curves and straightaways are yours to discover.

Connects you like never before.

An available, **class-exclusive 4-inch LCD multifunctional display** helps make controlling Fiesta systems simple and easy. View audio system data, vehicle settings, SYNC® information and more on the easy-to-read display screen that centers the instrument panel. Scroll through vehicle and audio settings by using the buttons on the cell-phone-inspired center console. Available **5-way controls** on the left (for SYNC) and right (for cruise control) spokes of the steering wheel help make operating those systems easy. Outside temperature, odometer and trip odometer are always displayed (on SE models and above) on the small screen between the speedo and tach. The end result? You're connected and in control.

Operate the available SYNC voice-activated in-vehicle connectivity system with the 5-way control on the left spoke of the steering wheel, and the buttons on the center console. Follow the action on the 4-inch LCD display screen. Visit SyncMyRide.com for all the latest news.

Display icons always let you know what's happening, whether you're making or receiving phone calls with SYNC, adjusting vehicle settings (clock, available ambient lighting, display language) or viewing messages (trunk open, door ajar, etc.).

Scroll through, select and control your range of audio choices (AM/FM stereo, CDs, available SIRIUS Satellite Radio, or an auxiliary digital media player). Push-button controls on the center console help you make your selections. Information is always displayed in a bright, easy-to-read format on the 4-inch LCD display screen.

Seats you in serious style.

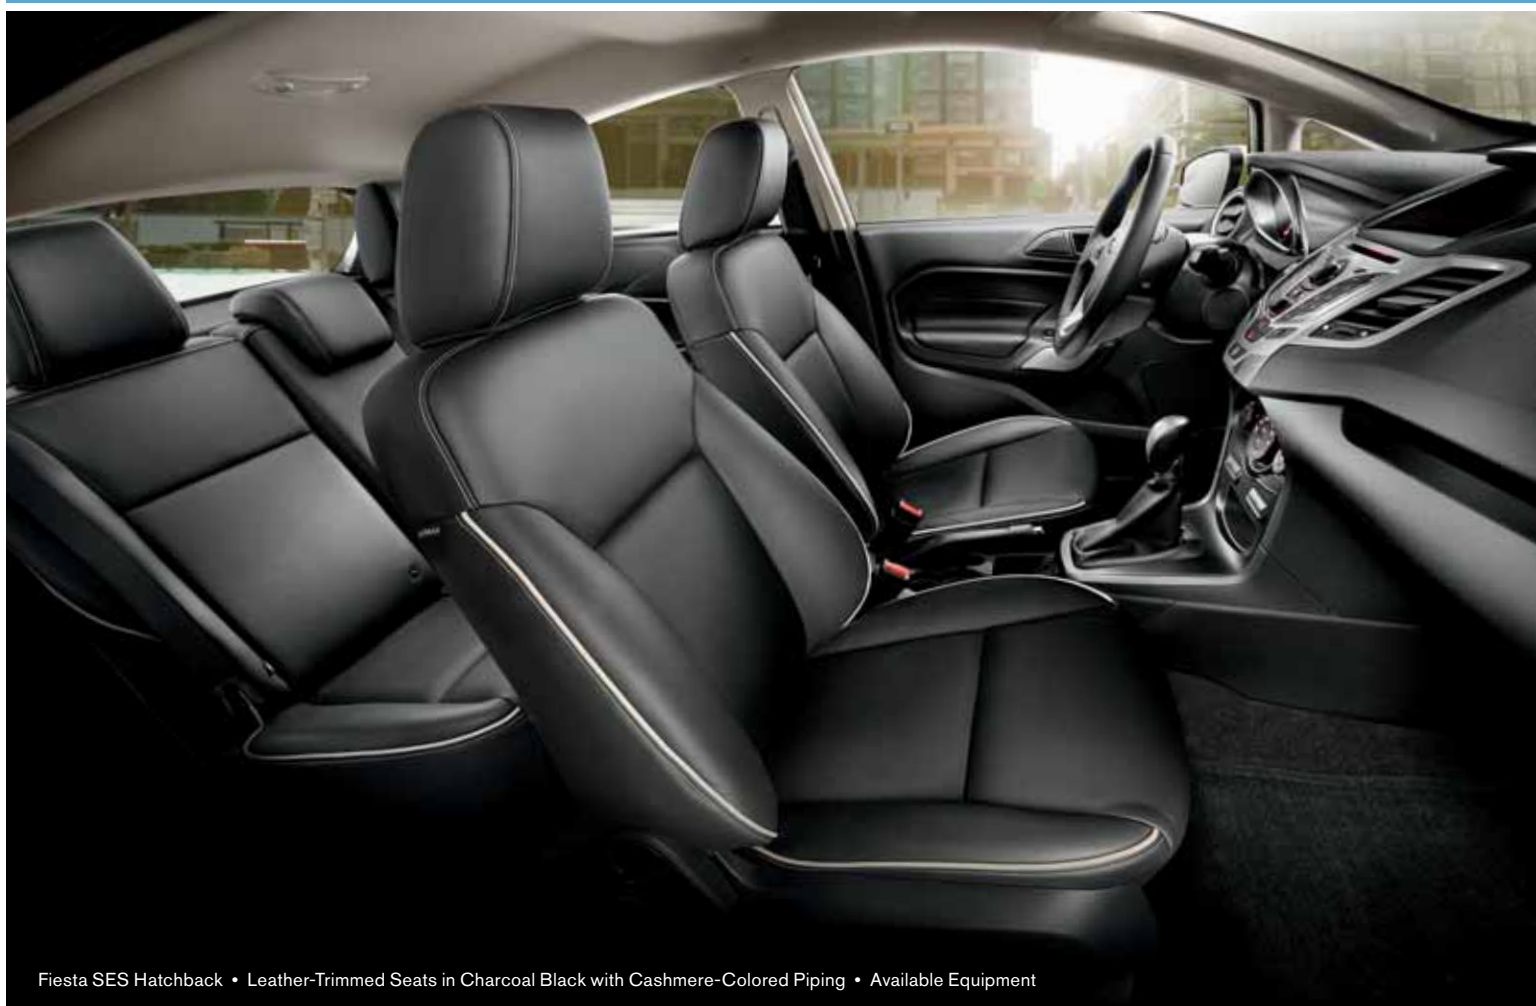

With choices you won't find anywhere else in its class, style abounds inside the new Ford Fiesta. **Leather-trimmed seats**¹ in your choice of Plum Red or Cashmere-colored, with Charcoal Black piping, or Charcoal Black with Cashmere-colored piping. Heated front-seat cushions.¹ **Ambient lighting** that lets you choose from 7 hues.¹ All class exclusives. And all ready to impress. For those moments when style takes a back seat to space, Fiesta's 60/40 split rear seat folds down, opening up additional room for your gear. Pass-through access from the trunk increases that usable space even more in the sedan.

In Fiesta, you've got choices. Not compromises.

HEATED SEATS

Drive one.

Keeps you covered. Even your knees.

A class-exclusive driver's knee airbag, one of **7 standard airbags on Fiesta**, is just one element of its **complete safety story**. Dual-stage front airbags, front-seat side airbags and side-curtain airbags help protect the whole passenger compartment. **Ultra-high-strength steel** helps reinforce the frame. And AdvanceTrac® electronic stability control helps you stay on track. In terms of safety, Fiesta's got you covered.

THE 7TH AIRBAG

A class-exclusive driver's knee airbag, which inflates between the knees and the instrument panel in a crash, gives Fiesta a class-leading 7 airbags. All smartly positioned to help protect driver and passengers.

ULTRA-HIGH-STRENGTH BORON STEEL

Incredibly strong. Remarkably lightweight. Used in critical areas of the body structure to help protect occupants in the event of a collision.

1

FRONT-SEAT SIDE AIRBAGS

Deploy in certain side-impact collisions. Offer an extra measure of chest protection for the driver and front passenger.

2

SIDE-CURTAIN AIRBAGS

Deploy from the headliner to cover both rows of the vehicle in certain accidents.

3

4

ADVANCETRAC ELECTRONIC STABILITY CONTROL

Standard. Helps you stay on track. Brings an uncompromising level of confidence to every drive.¹ In fact, according to a National Highway Traffic Safety Administration (NHTSA) study,² ESC reduced single-vehicle passenger car crashes by 35% compared to similar models without the technology.

5

PERSONAL SAFETY SYSTEM™

Sensors here trigger deployment of the dual-stage front airbags of the Personal Safety System. Additional sensors in the Front-Passenger Sensing System determine occupant weight and safety belt status to optimize deployment force.

6

INTEGRATED BLIND SPOT MIRRORS

Smartly integrated convex spotters alert you to vehicles entering your blind spot. See a vehicle there. Stay in your lane until it passes.

7

SPACE ARCHITECTURE®

Stands for Side Protection and Cabin Enhancement. Achieved by running a high-strength steel cross-car beam between the door frames that helps divert crash forces underneath the seats and away from occupants.
